

Scheduled and Charter Flights - Handling Tariff

The operator of an aircraft of the scheduled or charter traffic is obliged to pay a charge for the services rendered by the Airport Authority for every rotation (one arrival and one departure or vice versa).

Movements for instruction or technical reasons or ferry flights are exempted from this charge.

Carriers interested in operating scheduled or charter flights from/to LUG should contact Lugano Airport SA to confirm the terms and conditions of the SGHA. Lugano Airport SA also operates an incentive policy on airport charges for specific destinations.

For any further information please contact: commercial.mrkt@luganoairport.ch

Flat rate charge in Swiss Francs for one rotation: arrival and departure

Below is a list (not exhaustive) of the handling charges applied by type of aircraft. For further information on aircrafts not present on the list please contact: commercial.mrkt@luganoairport.ch

A318 - 100	1519

The ground handling contains the following main services:

- marshalling of aircraft to and from the parking position
- loading, unloading and transport of baggage
- transport of passengers by motor vehicle (on demand)
- general cleaning of passenger cabin of the aircraft
- stand-by of fire fighting services
- accompanying and assistance of passengers
- check-in operations

Cute charges not included: cost 0.60 USD per departing passenger (invoiced in CHF currency as per actual exchange rate)

For further information about the services included in the ground handling charge please contact: airlinehandling@luganoairport.ch
